Mother's Day Sets

35 to 40 Slides per Set.

RENTAL, $2.00 PER SET, WITH LECTURE NOTES

1. The Queen Mother. The story of Mary, the Mother of Jesus. The slides are all by famous artists, and beautifully colored.
2. Mother and the Home. A eulogy of mother and the home. The slides contain beautiful pictures of the scenes dear to our childhood.
3. Men's Mothers. Based upon the well-known fact that we are so enamored by the greatness of "great men" that we forget often to give credit where credit belongs—namely, to their mothers. The slides show scenes from the lives of great men and their mothers; and it links up their greatness to the early training of their mothers.
4. Mother, Home and Heaven. The three sweetest words in the English language. The slides show scenes of home life, linking up the earthly home with the heavenly home, and concluding with artists' conceptions of the New Jerusalem.
5. Motherhood and America. Shows the contribution mothers have made to the development of our country, beginning with the Pilgrim Mothers, and ending with the story of the President's mother (Mrs. Delano Roosevelt).
6. Springtime and Mother Love. Based upon the old saying "In the spring a young man's fancy lightly turns to thoughts of love"; but it eulogizes mother love as the greatest of all love, for both young and old. Contains some beautiful scenes of springtime, and home life.

BALTIMORE CATECHISM

By Father L. P. Golden, of the Los Angeles Diocese.

This wonderful set consists of thirty-six lessons carefully visualized. The teaching manual gives a brief description of the features used, the reason therefor, the quotation from the Scriptures which establishes the religious content of the picture and a brief modern example of the lesson. After the first introduction which definitely establishes the teaching power of Christ, we go back to lesson one, showing the creation of the world by God, the Father; the establishment of the Blessed Trinity and answer, through pictures, each one of the questions in its proper rotation as shown in the Catechism. The general descriptive matter in the manual is such that it will hold the student's attention and will clearly analyze the meaning of the questions and answers.

The pictures are all copies of masterpieces, carefully seleceted to appropriately illustrate the lessons. Some of the pictures were especially posed and photographed when an Old Master could not be found that would properly visualize the particular subject at hand.

This is a wonderful set of films and has endorsement of high Ecclesiastical authority.

THE CATECHISM IN PICTURES

(LEHANE)

A method of visualizing Christian Doctrine. The idea of teaching through the sense of sight is not new in the Catholic Church. Stained glass windows and Mystery Plays of other days are proof of that.

Following are the rolls and the subjects treated in each:

6. Customer must take care of our films when in his possession, and particularly so in using **Talking Pictures.** Do not allow sound films to come in contact with floor or table, or otherwise gather dirt. Make sure your **Sound Projector** is kept clean. Make sure teeth or sprockets are properly engaged in sprocket holes of the film so that no punctures or other injury will come to the film. See that "sound film" is properly centered in the guide track where it passes the aperture plate—that all loops are properly adjusted at each point where there should be a loop in the film. All users of sound film read carefully the instruction book furnished with the projector.
